

Welcome Home Ministries – Africa June

To Love, Care, and Pray Destitute Babies Back to Health; or into Jesus Loving Arms

2020

After; what an improvement by the 26th May.

Before: this little guy suffering a lot 10th March.

Dear Welcome Home Friends and Family,

This past month has been much of the same at the home in Uganda as it is here in the USA. Mums keeping children busy with home schooling and things to occupy their time. The children and the staff are all healthy. Thanks for praying for them all. We are happy to report that Uganda has only had around 200 cases of the virus with no deaths. The country is still pretty well locked down with all the borders still closed including the airport.

Above is the picture of Joy and the new little boy Moses who was admitted the 26th May. His mum is deceased and dad is unable to care for him.

On the left is a little boy we treated from the village who was in a very serious miserable condition covered with sores even inside his mouth. You can see that from 10th March to 26th May there is a great improvement in his condition, now thriving.

Our little village girl who was admitted to the home August 2019 because of loss of scalp is improving. Her scalp became infected where there had been an IV in place when she was sick with Malaria. Good care has caused the scalp to grow back attaching itself onto the skull. It has been slow but is only months away from full coverage.

Please pray for us as we look to make an impact for the Children of Uganda and their families.

*Blessings from Mandy,
and Your Welcome Home Family.*
